

dopo aver eseguito il download del file PDFCreator.msi avviarlo e seguire le indicazioni

per il plottaggio PDF Creator

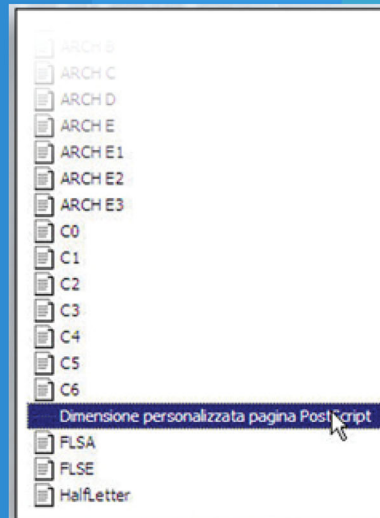

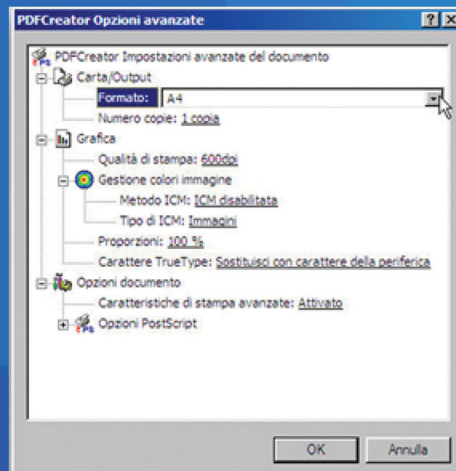

Per il formato di stampa usare predefiniti o entrare in Properties poi Custom Properties

Al termine della installazione software indicherà una stampante PDFCreator

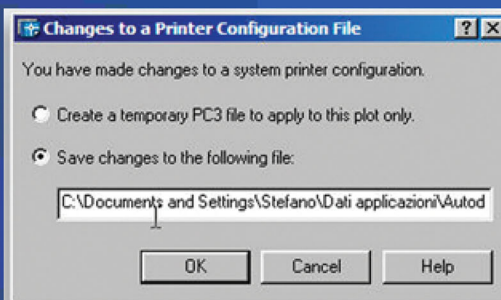

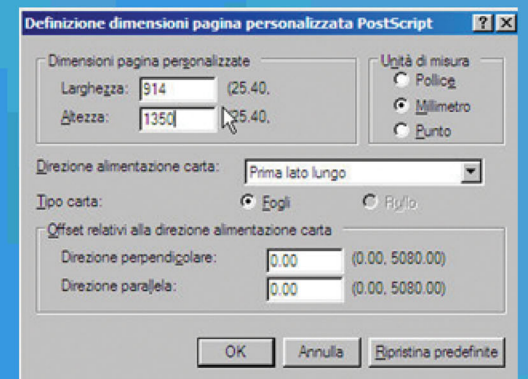

seleziona avanzate

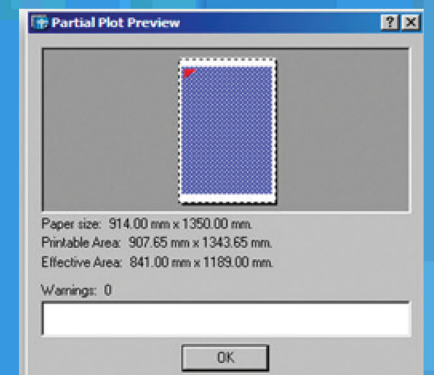

nella finestra formato Dimensione personalizzata Pagina Postscript

Impostare misure necessarie

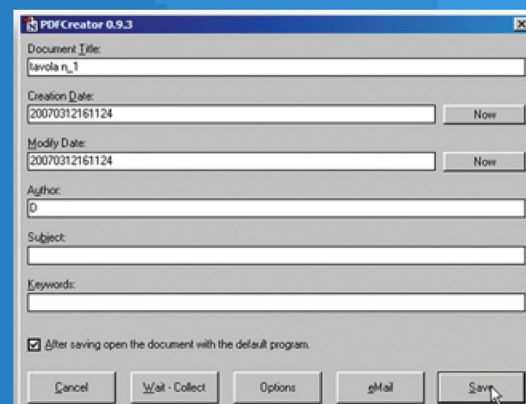

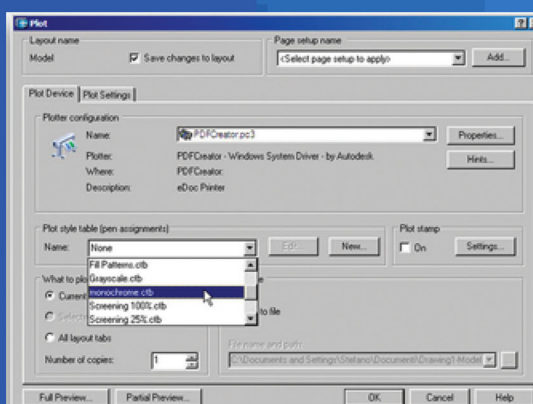

conferma save changes to the following file

con Plot Preview verificare le dimensioni di stampa poi con Full Preview le penne ed i colori se sono come impostate correttamente

determinare il fattore scala con il file CTB nella cartella Plot setting

Al termine della procedura il file pdf verrà salvato
